

1) A college want to analyze student performance.

Ans:-

## 2) Hospital Healthcare Analytics.

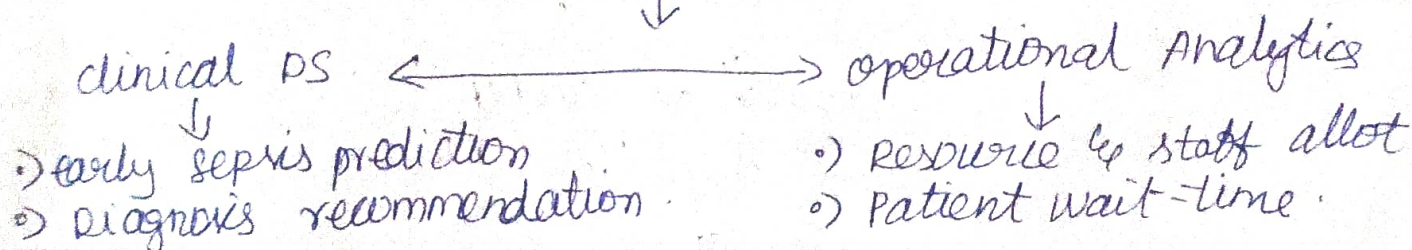

### data collection source

### Ingestion & processing.

- NLP (named entity Recog ...)
- signal processing.
- Relational join.

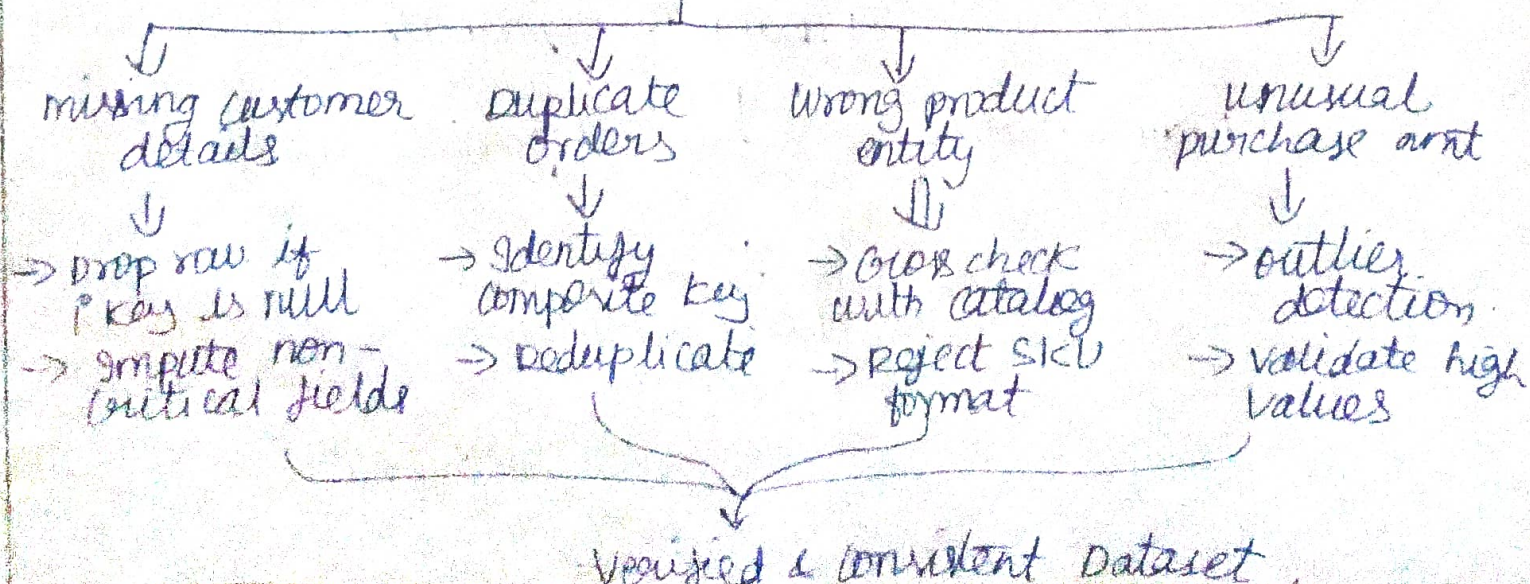

### Healthcare Analytics.

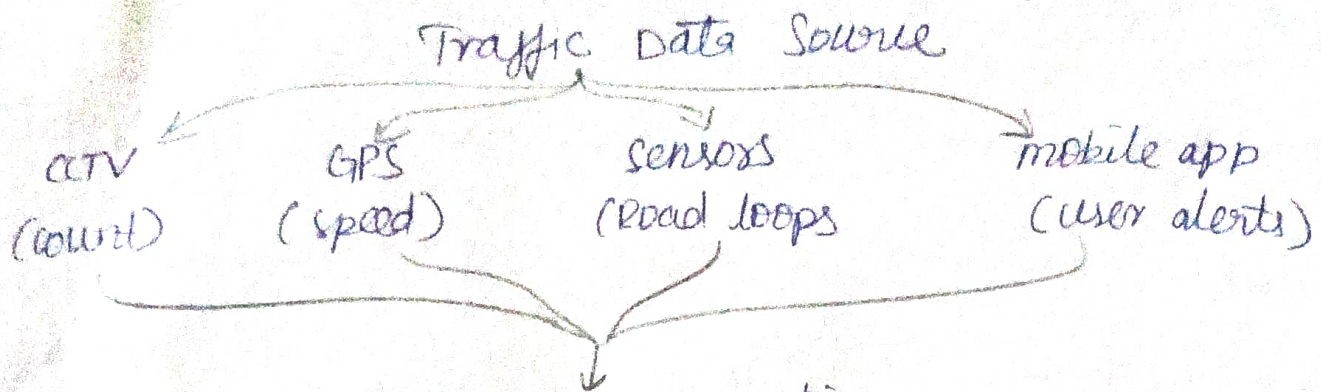

## 3) E-commerce Data hygiene:-

### Identified Issues.

### data cleaning workflow.

#### 4) smart city Traffic

1. Ingestion pipelines.

↓  
collect raw live data.

2. Alignment & Synchronization.

- Spatial - match to road segment IDs.
- Temporal - sync by 5 min intervals.

3. merging & conflict checks.

- combine speeds & vehicle counts.
- solve overlap sensors report.

Unified Traffic Dataset for Analysis.

# 5) Bank loan Approval-

## Loan Applicant features.
